

# PRODUCT QUALITY MANUFACTURING & COMPLIANCE

The U.S. Food and Drug Administration's (FDA's) continued emphasis on proactive quality management and compliance with current good manufacturing practices (cGMPs) presents new challenges and opportunities for the private sector, making it essential for companies to build quality, safety, and integrity into their products.

Greenleaf's in-depth knowledge and understanding of the FDA provides clients with the technical and strategic support needed to align their approach with the FDA's quality, safety, and compliance expectations.

## STRATEGIC & TECHNICAL CAPABILITIES

Greenleaf's Product Quality, Manufacturing, and Compliance Team has a proven track record of achieving success and providing services that are recognized as best in class by companies seeking to strengthen their quality management systems.

Greenleaf professionals work as teams specializing in product quality, manufacturing, and compliance; medical devices and combination products; and drug and biological products. Greenleaf's comprehensive approach provides a full-service engagement that ensures clients can count on expert direction as they encounter complex regulatory challenges.

Greenleaf's compliance experts specialize in corporate quality and compliance systems; FDA inspections, compliance, and enforcement processes; FDA organization and structure as they relate to compliance functions and decisions; FDA communications, including enforcement letters and facility and supply chain audit reports; and the complete spectrum of compliance- and enforcement-related actions.

To further enhance the firm's robust compliance services, Greenleaf has developed an Independent Contractor (IC) Network of additional technical experts who can be deployed to provide on-site services at entities that manufacture FDA-regulated products.

# QUALITY & COMPLIANCE SERVICES

## Compliance Assessments

Greenleaf works with life science entities to evaluate and strengthen compliance functions with an eye toward optimizing processes, mitigating risks, and creating a culture of compliance, while continuing to meet business objectives.

## Compliance Remediation

Greenleaf experts bring an unmatched level of credibility and trust when interacting with the FDA. The team has the experience and insight to successfully guide companies along the remediation pathway.

## Inspection Readiness

Greenleaf experts strengthen clients' readiness for FDA preapproval and surveillance inspections through consulting, training, audits, and mock inspections.

## Supply Chain Optimization

Greenleaf uses a systemic approach to help clients strengthen and safeguard the integrity of their supply chain management practices and comply with the regulatory requirements of the Drug Supply Chain Security Act.

## FDA Communications

Greenleaf's best-in-class experts bring value to any communication with the FDA, including formal regulatory communication, in-person meetings, and responses to compliance actions and regulatory correspondence.

## Consultation, Training & Regulatory Guidance

Greenleaf delivers insight and guidance that help clients achieve business and regulatory objectives. The team also develops and delivers training on a variety of regulatory subjects.

## GCP Services

Greenleaf specialists use a risk-based methodology to develop and improve clinical quality systems. Because there is no one-size-fits-all approach to CGP compliance, each solution is built to fit the targeted needs of the client.

## Cell & Gene Therapy

Greenleaf helps sponsors establish manufacturing and quality controls and engage with the FDA to address potential technical and regulatory challenges related to emerging manufacturing technologies.
